

EnviroDEFENSE® PurPond Aquaculture

EnviroDEFENSE® PurPond Aquaculture is designed for use in fish and prawn ponds, lakes and lagoons where organic odors and organic accumulations are a problem.

Contains naturally occurring bacteria and enzymes, which have been selected and produced for their ability to break down organic matter and reduce ammonia accumulations through a natural oxidative process. EnviroDEFENSE® PurPond Aquaculture digests these organics naturally and safely and keeps pond water fresh and disease free.

MARKET APPLICATIONS:
Aquaculture
Pond & Lake

FEATURES

- Degrades Fish Water & Uneaten Fish Food
- Clarifies Water
- Removes Sludge & Odor

USAGE

Pond/Water Garden Application: Apply 1 oz. (29.57 ml) per every 1,000 gallons (3.78 L) of pond water.
